NEW FEATURES 2022
KITCHEN, BATHROOM
AND LIVING AREA

NEW PERSPECTIVES

Tailor-made solutions for every room in your home! Our new features in 2022 meet this demand in a particularly innovative and modern fashion. After all, our home has never been more important to us than in these times.

Our collections are now defined by intelligent and incredibly variable storage solutions, smart features – some of them with a digital inspiration – and new colours and décors, from authentic to elegant. We are rediscovering the utility room and using creative access solutions to open up new horizons of room design.

MORE INDIVIDUALITY

Even more variants for even more individuality.
We have let nature inspire us to expand our product
range with seven new and highly fashionable fronts.
Natural colours and materials such as wood, glass
and concrete define our new look.

DESIGNS YOU CAN TOUCH

Where the new NATURA range is concerned, the name says it all. In the Oak Montreal décor, NATURA adds to our range of wood reproductions, looking remarkably authentic in its natural appearance. But even the feel of this front is remarkably close to real wood, thanks to a tactile texture. NATURA is a perfect combination of design and convenience, is easy to maintain, light- and water-resistant and even impact- and shock-resistant. Thanks to our characteristic anti-fingerprint-effect, these are living space designs you need not feel afraid to touch.

CERAMIC WORKTOPS

A trend material for kitchens and bathrooms: Our patented Xtra Ceramic worktops will wow you with their natural appearance and their exceptional usability. The worktop and niche thickness of 16 mm is achieved through bonding with a support panel made of recycled waste glass. In addition, the worktops and niches have impact-resistant design edges. Xtra Ceramic is available in five décors, which look great when combined with our existing colour range. Xtra Ceramic – like our Xtra worktop – permits flush mounting of hot plates and built-in sinks.

Everything from one source! This basic principle also applies to the Xtra Ceramic worktop: Worktops and niches are supplied in a single process along with the entire consignment within the standard delivery time. One order. One delivery!

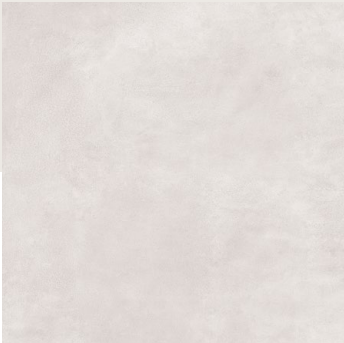

- All advantages of the patented Xtra Ceramic worktop:
- High-quality visual appearance – scratch-resistant, pleasantly cool surface
 - Special aesthetic qualities and pleasant feel – perfect for kitchens and bathrooms
 - Waterproof – even without special waterproofing
 - Hygienic surface – non-porous and particularly easy to maintain

Brown / Stainless steel finish

024 LINE N RECESSED HANDLE
Yellow gold-coloured

As this leather handle is a natural product, variations in colour cannot be ruled out. Leather handles acquire signs of use over time, giving them an authentic, natural sheen that creates a unique atmosphere, particularly in living rooms. This natural ageing process is unavoidable over the long term.

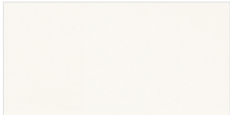

EVEN MORE CHOICE: 30 SHELF UNIT COLOURS

The range of available colours for shelf units has been overhauled and reorganised:

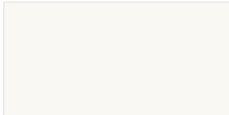

Shelf units are an important design element when planning furnishings. They add a cosy touch to kitchen designs, contrast beautifully with continuous surfaces and are the perfect way to frame unique decorative items.

Plan elegant colour-coordinated designs or add colourful eye-catchers!

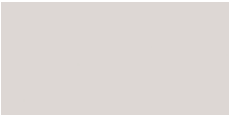

The 2022 collection comprises a total of 30 shelf unit colours.

A PLACE FOR EVERYTHING

Intelligent and pragmatic! We now offer wardrobes and shoe cabinets in tall units. These are a clever idea, not just for utility rooms but also for conventional wardrobe designs or as a shelf unit variant. For extra-convenience: Shoe cabinet shelves with alternating depths for different types of shoes.

SHOE CABINET AND WARDROBE ELEMENTS

These open cabinet elements are perfect for planning entire dressing rooms or walk-in closets. Different divider options are available to meet any need.

THE NEXT STEP

In our move to a new grid system, we have taken the obvious next step of introducing a new wall and tall unit height.

KITCHEN PLANNING MADE TO MEASURE

In the next step, we are adding height 2 to the new grid. Specifically this means:
The new wall unit is 792 mm high, representing a symmetrical counterpart to the XL height for base units. Coordinated tall unit and dresser unit heights round off the new line layout.

Flush finish

OPEN FOR MORE

New access doors open up a range of new possibilities for room planning. They are used as a connecting element between two rooms such as the kitchen and utility room or pantry or act as a subtly hidden feature in combination with tall units.

H(D)WDT*

Tall unit access door

600 mm width: 1 lug connected door
800 / 1000 / 1200 mm: 2 lug connected doors
2 upright panels, 16 mm thick
1 top shelf, 16 mm thick
1 plinth panel with connecting bracket
Widths: 600, 800, 1000, 1200 mm

Planning information

Can only be planned between tall units of the same carcass height and with a rear wall connection.

Access doors cannot be planned at end of run, as a freestanding solution or within a room divider!

Height and width modifications and modifications of the front division are not permitted!

Product is delivered disassembled.

SLIDING DOOR SYSTEM

Sliding doors are truly multi-talented when it comes to the effective use of space in limited areas. They free up the room and create a spacious look. This exclusive shape of sliding door makes it the perfect design element for room dividers, fitted cupboards and walk-in wardrobes.

Customised design:
pre-defined sets are ideal for planning. Simply enter the desired dimensions and décors to suit your room design. And you're done!

Greater flexibility:
depending on the design, 1-3-track sets with up to 4 doors are available. Planning made easy!

Always unique:
13 original front colours and a mirrored front can be combined across the entire surface or divided symmetrically using styling bars.

Matching details:
The track system is available in black or stainless steel finish and can be integrated in widths of up to 5 meters.

GROHE

A sensational new feature added to our product range: The GROHE Blue Red in one water system by GROHE. A luxurious all-in-one system for all types of water preparation: Red symbolises boiling water. Blue represents non-carbonated water, medium carbonation water or sparkling water. The advantages of this innovation include its uncomplicated maintenance and care, simple installation and the low space requirement in the base unit.

Blue Home

- Warm & cold water connection as standard
- + Cooled water: sparkling
→ 3 litres per hour
- + With Bluetooth 4.0 and WIFI data communication

GROHE
Water system Blue Home

- Tap variants: L spout with and without spray head
- High-pressure single-lever mixing tap
- Push buttons for 3 types of filtered and cooled table water 5°C – 10°C non-carbonated / medium / sparkling
- Connection for hot and cold water
- Swivel spout, swivel range 150°
- Separate water routing for filtered and unfiltered water
- Flexible connection hoses
- **Available colours:** Chrome, Stainless steel appearance

GROHE Blue Home cooler

- Supplies 3 litres of cooled, sparkling water per hour
- With Bluetooth 4.0 and WIFI data communication

Installation recommended in: UDI (-X/-M), NU (X) upwards of 450 mm width or SPU(D) (-X/-M), SPUS (-X) upwards of 900 mm width

GROHE Blue Red in one

- Warm & cold water connection as standard
- + Cooled water: still, medium & sparkling
→ 3.2 litres per hour
- + Boiling water: 3 litres 100°C
- + With Bluetooth 4.0 and WIFI data communication

THE SALLY OVEN – EXCLUSIVELY AT nobilia

In collaboration with the famous food blogger Sally, nobilia is now offering the Bosch oven HBG 5780 B 6. The exclusive appliance is equipped with a pyrolysis function and Home Connect technology and can therefore be linked to the app “Sallys Welt”. Specifically this means:
Over 1,500 recipes for cooking and baking can be sent directly from the app to the oven via the Home Connect function. This innovation is exactly to our taste.

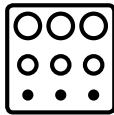

Trying new recipes can be disappointing, especially if you don't know the precise temperatures and cooking times needed. Home Connect provides just the right support. With full access to a whole world of mouth-watering recipes, the ideal settings for cooking the perfect meal are transmitted directly to your oven. Simply select your favourite meal in the Home Connect app or the app “Sallys Welt” and the oven will automatically determine the ideal type of heating, temperature and cooking time for you.

AutoPilot.

AutoPilot 30 will make sure your meal turns out great. Select the right automatic program in the display menu, enter the weight of your meal and press “Start”. The AutoPilot will determine the type of heating, temperature and cooking time. At the end of the cooking time it will even switch off the program.

Pyrolysis – self-cleaning program.

When the pyrolysis function is activated, your appliance will heat up to burn adhering food residues, grease and oil with the power of 480° C. Select one of three levels and press start. All that is left is a little bit of ash that can easily be removed with a paper towel.

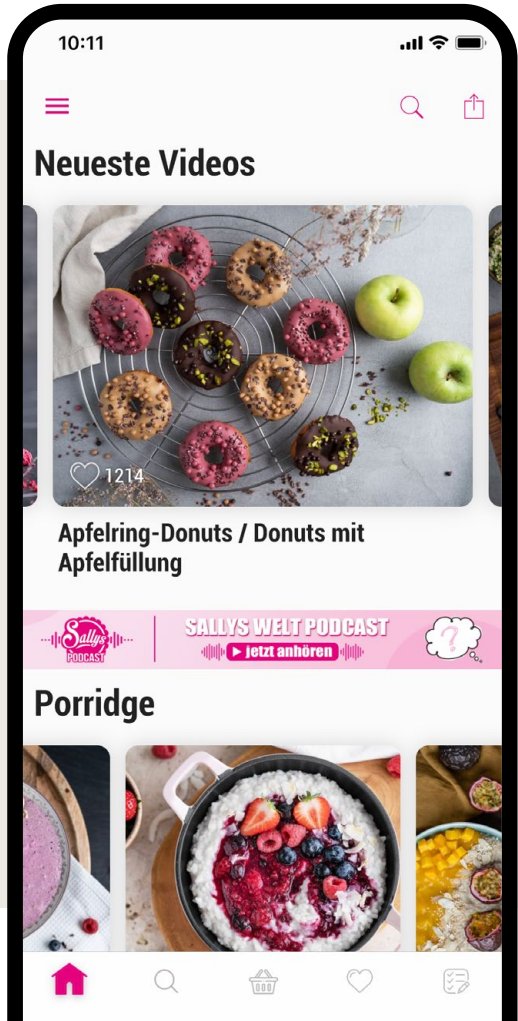

Home Connect

SALLY APP

“My app ‘Sallys Welt’ contains over 1,500 recipes for cooking and baking, the settings of which you can transmit directly from the app to your Bosch oven thanks to the Home Connect function. The appliance is automatically set to the right baking time and temperature. That way your recipe is sure to turn out great.”

BRAND-NEW BATHROOM IDEAS

More comfort and convenience in the bathroom! Beautiful, intelligent solutions are the perfect basis for personalised feel-good designs.

NEW BATHROOM FEATURES FURNITURE AND SURFACE-MOUNTED HAND BASINS

Duratek®

Compact, durable and exceptionally beautiful:
Duratek® is an innovative full acrylic composite material
made of quartz, ceramic nano-particles and a mixture
of innovative acrylic resins for bathroom hand basins.
Matt look, velvety finish – for a beautiful contrast with
glossy pieces or colourful surfaces.

Advantages:

- Ultra-compact surface
- “Velvety” finish
- Extremely easy to clean
- Matt, long-lived colours
- Exceptional impact resistance

600 mm

188 LEATHER LOOP (MP 7945)
Brown / Stainless steel finish

As this leather handle is a natural product,
variations in colour cannot be ruled out. Leather
handles acquire signs of use over time, giving
them an authentic, natural sheen that creates a
unique atmosphere, particularly in living rooms.
This natural ageing process is unavoidable over
the long term.

LIVING ROOM ACCESSORIES

TK35
**Depth reductions to living
room base units to a side
depth of 350 mm**
—
