BE INSPIRED

Inspire your customers with creative concepts and new ideas!
We live by the motto of this year's in-house exhibition.
That is why our new 2024 collection is as inspiring as life itself.
Discover versatile design, innovative functions and unique
customisation options: a truly inspiring system.

INNOVATIONS. TRENDS. IMPULSES IN 2024.

Today's furnishings with an eye on tomorrow! nobilia's 2024 collection is all about inspiration. Discover new materials, innovative products and unique interior design ideas. We will show you today's trends in colours and materials and give you creative impulses for planning and design. Comprehensive design concepts that cross multiple rooms are more popular than ever. And there's plenty to see in the household appliances segment, too, for instance our exclusive hot plate extractor fan, developed in-house, and new appliance collaborations. You want even more ideas? You'll find them in our brochure! Enjoy!

- 68 Discontinued products

MORE THAN KITCHEN

- 50 New living features
- 56 Dining tables and chairs
- 62 New bathroom features

NEW FRONTS 2024

Nine new fronts in popular top-seller colours and fashionable trend hues now complement our collection in melamine and high-quality genuine lacquer design. In addition, the structure and price group classification for the fronts was optimised in several places for 2024.

Range no. 357

SENSEO 490 PG 3

SENSEO reloaded! Our new SENSEO fronts offer improved anti-fingerprint coating, maximum durability, an ultra-soft feel and more intense depth of colour. After the update, the SENSEO range now features additional colours: alpine white and slate grey, two top-selling classics. Coral and jade, two pastel trend colours. And they look great when combined!

Range no. 615

We have merged the successful melamine ranges SPEED and LASER! SPEED's successful décor Black concrete and the trend colour Taupe grey have now been added to our LASER range, which has been moved to the attractive price group 1. This means handleless LINE N designs are now available from price group 1.

Top sellers under a new name! LUX is now NOVALUX. The genuine lacquer fronts with high-gloss appearance are lacquered on all sides and available in 3 top-selling colours. They have been moved from price group 9 to price group 6 and feature a new edge radius.

ALPINE WHITE MAKES YOUR LIFE BRIGHTER

More space, more light, more freedom. And thanks to the anti-fingerprint coat, the white colour is guaranteed to stay clean. SENSO in lacquer, premium honed alpine white creates clear, open spaces and is particularly suitable for open-plan designs. It's the perfect surface for minimalist LINE N designs.

Attractive all-around!

- Less cleaning effort thanks to anti-fingerprint coating
- Resistant to common stains
- Insensitive to many cleaners
- Resistant to heat and moisture
- Resistant to micro-scratches, which can also occur during cleaning

A COSY SPACE IN SLATE GREY

You can see and feel the difference. Slate grey lacquer fronts in the SENSO premium honed design exude velvety warmth and give a room a special touch of cosiness. For a modern eye catcher, add the Oak Line natural niche cladding.

- Extremely resilient
- The surface features multiple layers and is therefore thicker than the melamine front
- More durable than conventional lacquer systems
- Easy-care

SENSO's melamine chipboard consists of 100 % recycled material. It's produced without the use of virgin fibres. Moreover, the SENSO surface is completely recyclable so that it can be reused at the end of its service life. For that reason, SENSO has been certified with the 'Blauer Engel' (Blue Angel) eco label.

www.blauer-engel.de/uz38

TREND UPDATE IN CORAL

Our new pastel hue coral adds a fresh touch to the SENSO colour palette.
Mix it with light quartz and Taupe grey elements for a truly creative room design.
A new alternative to our handleless LINE N solutions: the curved end-of-run fronts of the Curve series highlight the soft colour environment with their organic contours.

Intense depth of colour

Despite the extremely matt surface, the brilliant colours are particularly intense. The matt technology does away with the need for matting agents. Highly pigmented coating improves the colour depth and ensures high colour stability.

REFRESHING JADE

SENSO in the trend colour jade refreshes kitchen designs and comes into its own particularly well when used for large surfaces. A marble look for worktops, wall cladding or niches looks especially great together with this colour.

LINEA

Soft feel

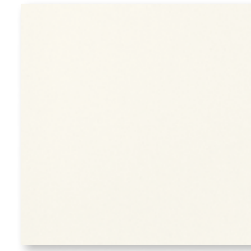

The SENSO surface offers an extremely matt surface through UV treatment. This gives this lacquered front a soft, pleasant feel.

Maximum durability

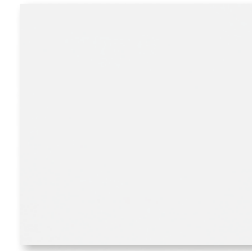

UV treatment makes SENSO fronts even more durable and gives them improved scratch resistance.

Anti-fingerprint

Thanks to an improved anti-fingerprint coating, the new SENSO fronts resist fingerprints and are especially easy to clean.

Sustainable

SENSO's melamine chipboard consists of 100% recycled material. It's produced without the use of virgin fibres. Moreover, the SENSO surface is completely recyclable so that it can be reused at the end of its service life.

For that reason, SENSO has been certified with the 'Blauer Engel' (Blue Angel) eco label.

www.blauer-engel.de/uz38

Premium quality in price group 3

With its fully optimised quality, our SENSO lacquered front remains in price group 3.

Attractive and top-selling front selection

Intense depth of colour

Despite the extremely matt surface, the brilliant colours are particularly intense. The matt technology does away with the need for matting agents. Highly pigmented coating improves the colour depth and ensures high colour stability.

Soft feel

The SENSO surface offers an extremely matt surface through special matt finishing and UV treatment. This gives this lacquered front a soft, pleasant feel.

Maximum durability

UV treatment makes SENSO fronts even more durable and gives them improved scratch resistance.

SUCCESS COLOUR TAUPE GREY

Grey remains as popular as ever. Taupe grey was the great success of the new collection in 2023. Now we have also made this warm grey hue available in the entry-level price segment, in our LASER range. In addition, Taupe grey is now available as a carcass colour.

The changed front radius of 1.8 mm makes designs more modern and straight-lined.

NEW DESIGN OPTIONS FOR HANDLELESS DESIGNS

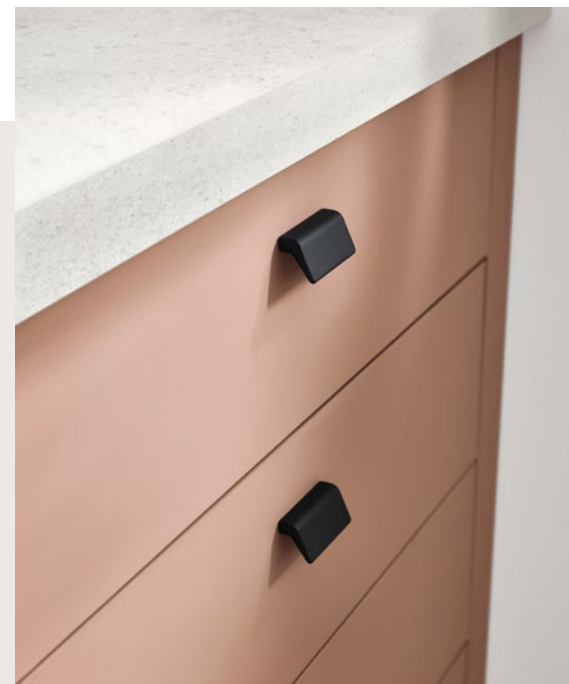

LINE N end units Curve for kitchens, bathrooms and living rooms

The new Curve design gives SENSO and EASYTOUCH an even more unique touch in kitchens, bathrooms and living rooms: The curved look of the front creates the perfect transition to the joint dimension of tall units with a vertical LINE N profile. The end units with their curved contours are a great choice for a surprising number of designs and absolutely ideal for end-of-run and island designs. They are available in widths of 450, 600 and 900 mm. Height and width adjustments are not possible. Available from January 2024.

New lighting options

An ambiance highlight at any time of day. Our new recessed handle lighting is now available for lighting both handle recesses.

NICHES FOR EVERY TASTE

The niche offers a plethora of design options. Very little effort is required to create unique eye catchers and highlight the overall design concept.

We now offer new materials and designs to let you do so.

Trend topics 2024: Scandi-style oak décors, colourful flower motifs and detailed Boho décors.

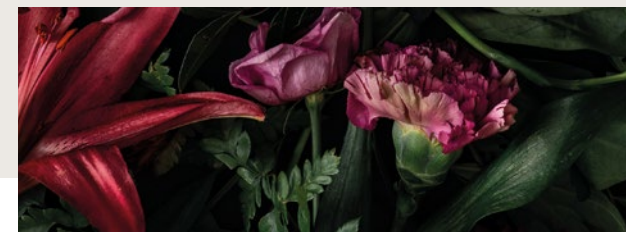

NVM 576 Décor Oak Line light

Light-coloured oak in its purest form is a typical feature of a contemporary Scandi look. For a modern look, combine it with clean white, soft grey or the new trend colour coral.

NVM 580 Décor Oak Line natural

As a contrast or tone-in-tone – Oak Line natural makes the niche area look more natural and radiates a particular warmth.

NVM 581 Décor Iconic Flowers

The niche cladding “Iconic Flowers” creates a blossoming contrast when combined with black. This powerful colour effect is the perfect addition to our Black Edition.

NVM 582 Décor Golden Nature

Casual elegance and love for detail are combined in this creative Bohemian style niche.

NVM 583 Décor Batik Style

Relaxed and in balance! Soft colour transitions characterise this unique niche cladding with a subtle batik pattern.

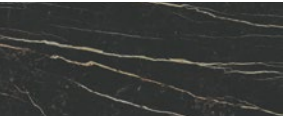

By the way: Our worktops, such as Venato marble, Terrazzo, Master Oak and many more, are also available for niche designs. This lets you create a consistent look throughout the entire space.

with wine glass holders

—

Side depth 561 and 461 mm:
 2 wine glass holders,
 1 glass tray made of 4 mm black glass

Side depth 350 mm:
 4 wine glass holders

Available width: 600 mm

Depending on side depth, suitable for installation in:

561 mm side depth: suitable for tall units and base units in 561 mm side depth and shelf units and (glass) roll-up front units in 582 mm side depth.

461 mm side depth: suitable for tall units and base units in 461 mm side depth as well as (bevelled) shelf units in 482 mm side depth.

350 mm side depth: suitable for wall units and (bevelled) shelf units in 371 mm side depth.

When planning shelf units, the surcharge MP-REB (7907) must be added to the order.

SHELF INSERTS CASE

At home in any place! The new shelf inserts Case open up a surprising variety of design options for kitchens, bathrooms and living rooms: Case adds a colour highlight, expands the available storage space and offers extra space for your favourite decorative objects.

Case lets you commit to any design concept across rooms without much extra effort. Our special design advice: You can also combine Case with our new dining table product range. All dining table models are available with tabletops matching the shelf inserts Case.

DESIGN WITH A HIGHLIGHT

In Case designs, a Case unit element in the original front design is always combined with a shelf insert Case CE* of matching height. The result: Case brings a breath of fresh air to the design and adds a colour highlight.

EVERYTHING AT A GLANCE

Find the right option at a glance! To make that possible, we have listed the unit elements in each category (base units, wall units, midi units, etc.) and the matching shelf inserts Case directly under each other in the corresponding chapters of the Sales Manual.

Case living product line: Case offers independent product lines for convenient and reliable marketing for living rooms.

A STRONG DUO

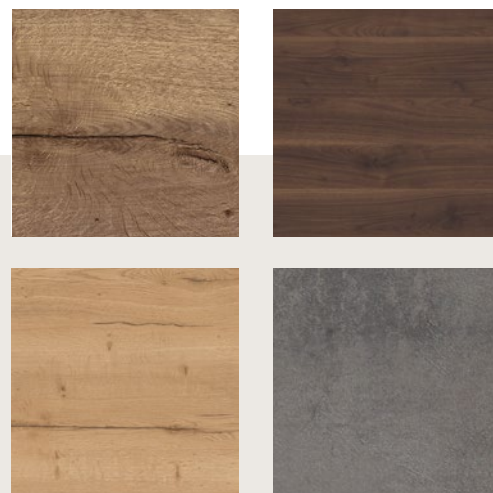

By default, the open compartments of all unit elements are white on the inside. Therefore, the shelf insert Case CE* is required and must be included in the order. Height, width and depth reductions are not possible.

Case bathroom product line: Case offers independent product lines for convenient and reliable marketing for bathrooms.

Available décors
for shelf inserts Case:

- 097 Havana oak reproduction
- 124 Walnut reproduction
- 198 Sierra oak reproduction
- 354 Concrete slate grey reproduction

XTRA HOB HOT PLATE EXTRACTOR FAN

A statement for contemporary innovation: The Xtra Hob hot plate extractor fan combines unique design with great functionality. Designed to perfectly match the Xtra décor 373 Grey slate reproduction, the Xtra Hob hot plate extractor fan merges seamlessly with the worktop.

Its special look and feel makes the Xtra Hob a perfect fit for a contemporary, open-plan living arrangement and gives it an understated charm. The powerful hot plate extractor fan can be top-mounted or flush-mounted and represents the modern way of cooking with its 2-in-1 concept. Inductive, powerful and with maximum energy efficiency – this is tomorrow's technology, available today, exclusively at nobilia.

It doesn't get simpler than this!

Each kitchen is unique, each Xtra Hob hot plate extractor fan is adaptable: With three models and two widths, it always fits perfectly into the prepared housing unit, thanks to the patented air socket. It's the details that show the innovative strength of this product: Unguided circulating air, a smart 2-in-1 touch operation, and a convenient automatic mode (Hob²Hood) – a complete system, perfectly designed for the modern kitchen. Assembly is quick and easy, allowing you to show off your cooking skills right away.

XTRA

Perfect match

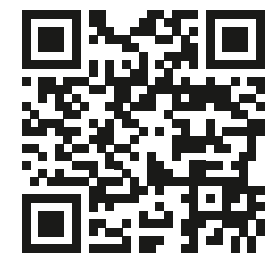

Designed to match the worktop décor **373 Grey slate reproduction** the Xtra Hob hot plate extractor fan fits seamlessly into the worktop.

Functional properties & individual design

- Quick and easy assembly
- Free positioning and planning thanks to three models and two available widths (60 cm, 80 cm)
- Can be flush-mounted or top-mounted
- Maximum energy, fan and grease filter efficiency of class A
- Smart, intuitive operation
- White LED display
- Dishwasher-safe cover grating and grease filter
- German quality components made by SCHOTT, E.G.O., ebm-pabst, etc.
- Made in France

Unique appearance, diverse design options

The Xtra Hob can be combined with any nobilia worktop décor. Let our combination examples inspire you:

ELECTRIC APPLIANCES

For 2024, the appliance range will be expanded with two additional, familiar brands: NEFF and Liebherr strengthen the overall selection with their powerful portfolio. By adding these premium brands, we are creating an opportunity for you and us to appeal to an even broader target audience.

LIEBHERR

LIEBHERR

For decades, fridges and freezers by Liebherr have represented quality, reliability and a long service life. Innovative technologies and high-quality materials make these appliances particularly sustainable and energy-efficient. In our 2024 collection, we offer an exclusive range of Liebherr products featuring mono-door and fridge/freezer combination appliances in an aperture height of 1780 mm. As a nobilia partner you can benefit from this offer even outside of the selective sales structures of the Liebherr brand.

EXCLUSIVE

EasyFresh – ideal for fruit and vegetables
This is the best place for unpackaged fruit and vegetables. Just for instance, sealed air-tight in the safe at the same temperature as the fridge section, lettuce will remain crisp and fresh even after 7 days.

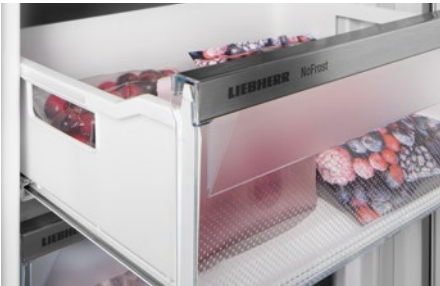

BioFresh – our universal talent
With our time-tested BioFresh technology, groceries are stored at a temperature just above 0°C, a significantly lower temperature than in the rest of the appliance. The perfect air humidity keeps fruit and vegetables fresh even longer in the air-tight Fruit & Vegetable Safe. Meat, fish and dairy are best stored in the Meat & Dairy Safe.

DuoCooling – prevents drying out
This is our basic technology in all combined fridge/freezer appliances. Two completely separate refrigerant circuits make sure that there is no air exchange between the fridge and freezer section. The food stored here does not dry out nor are odours transferred.

SmartFrost – defrost less
Our SmartFrost technology significantly reduces frost in the interior and on the stored food. This puts an end to frequent defrosting! The interior walls are particularly smooth and easy to clean.

NoFrost – an end to defrosting
The automatic defrosting function guarantees lasting freshness for frozen foods. You no longer need to worry about storing frozen food while you manually defrost your freezer. The ideal freezing temperatures are maintained without interruption.

AEG

AEG
DESIGN AND PERFORMANCE, COMBINED

Minimalist, high-quality, timeless. The AEG MattBlack Range will impress you with a design that has been reduced to what truly matters to emphasise the beauty of your kitchen. These appliances are highly sophisticated, down to the smallest detail – and are equipped with innovative technologies for great cooking experiences.

NEFF
cook. create. inspire.

With NEFF we have added another strong brand to our appliance portfolio for complete marketing. This product range contains a total of 22 appliances. Our partners benefit from an exclusive oven and 2 exclusive dishwashers.

No space wasted:
The cutlery drawer provides spacious areas on both sides to fit even large items.

NEFF N50 dishwasher, full integration possible
S175ECX13E, 81.5 cm high
S275ECX13E, 86.5 cm high

MEDIA FURNITURE WITH A SYSTEM

Modern media technology needs modern media furniture. As these pieces are part of a holistic living area design, their appearance is crucial. As much aesthetic and functional value as possible – that is the perfect solution for TVs and soundbars, cable management included.

MEDIB Media wall shelf

Cosy style and cable management! The media wall shelf – here in a walnut look – is the ideal space for a TV. The practical cable feed-through in the back panel makes cables invisible and makes sure they are routed neatly. An additional highlight: the optional LED light design **MP-MEDIB** generates indirect lighting and creates a beautiful ambiance in the entire room.

- 25 mm thick
- With back panel, 16 mm thick, coated on both faces
- Horizontal texture
- Maximum load: up to 50 kg
- Polymer edge all around
- Cable management using black spacer frame, 16 mm thick, 1 cable feed-through, rectangular, in 010 Black or 014 Stainless steel appearance
- Width: 1800 mm, depth: 371 mm, height: 360 mm

Available in all carcase colours and 124 Walnut reproduction.

The media panel is also optionally available with the MP-MEDIB (6497) LED light design.

Style product line with internal drawer and push-to-open mechanism

Minimalist furniture pieces are a trend – they feature nothing that could distract from their design! That is why we have created our new Style product line, based on handleless unit types with push-to-open mechanisms: a light push will open the door. Convenient internal drawers organise storage space without interrupting the full-surface look.

USH60-22 Drawer unit wall-mounted

1 drawer
Side depth: 461 mm
Height: 216 mm
Width: 600 mm

CT-DAK
Dakar coffee table

—
We are expanding our coffee table collection:
The new Dakar coffee table has an additional
storage shelf.

-
- 1 table frame powdered steel incl. gliders
 - Available frame colour: 010 Black
 - 2 top shelves, 16 mm and 25 mm thick
 - Available in two sizes (WxDxH):
1200x800x419 mm & 800x800x419 mm
1200x800x428 mm & 800x800x428 mm
 - Available in all top shelf colours

LINE N end units
Curve in the living space

—
This design detail will round off
any living area.
The new LINE N Curve end fronts
give simple lowboards and sideboards
a unique and unmistakable look.
These end units with a curved recessed
handle are the perfect fit for a surprising
variety of designs.
They are available in widths of 450,
600 and 900 mm. Height and width
adjustments are not possible.

Highboard HBB*-130

the units can be equipped with an
LED light design both in the L and
in the C profiles
 - The hinge side must absolutely
be indicated in the order
(hinge side = closed front end)
 - No height and width adjustments possible

DINING TABLES AND CHAIRS

Great news! For the first time ever, you can use nobilia furniture to plan an entire dining area. This creates the ideal conditions for matching design concepts in the kitchen, dining and living area. Our new dining table range features four different table models, which are complemented beautifully by our new upholstered chairs and armchairs in different designs. All frames are available in black.

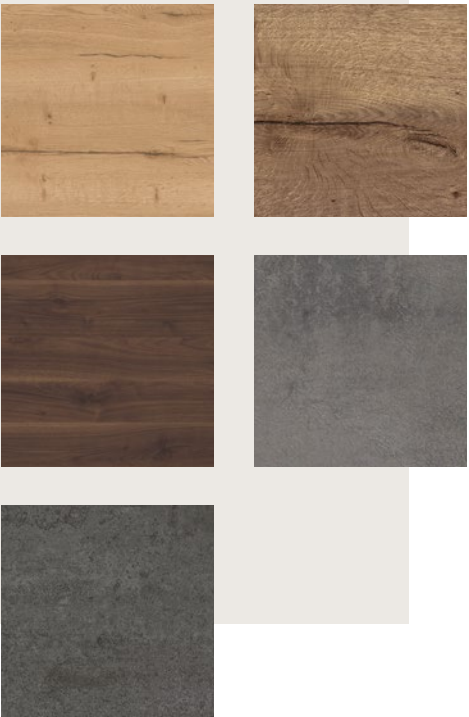

DINING TABLES

Our exclusive range of tables is just as perfect for open-plan kitchens that open up to the dining area as it is for separate dining rooms. The dining tables are available in three different fixed dimensions, permitting flexible selection for different room sizes and requirements. In addition, pull-out tables are available as a convenient and flexible solution for a fun evening with friends or other special occasions.

Discover the versatility and elegance of our new dining tables and let yourself be inspired by stylish combinations with our new range of chairs or the shelf inserts Case.

Available tabletop décors:

- 198 Sierra oak reproduction
- 097 Havana oak reproduction
- 124 Walnut reproduction
- 354 Concrete Slate Grey reproduction
- 378 Black Concrete reproduction

Available covers:

- 746 Storm Grey (vintage velours)
- 747 Green Forest (vintage velours)
- 748 Steel Grey (vegan leather)
- 749 Cognac (vegan leather)

CHAIRS

Our own range of chairs is the perfect addition to your kitchen or dining room design. Three major frame designs and four top-selling colours make our chairs look great in any room.

Each series contains a chair and the matching armchair with arm rests. The **Cross** series also contains an additional **bar stool with a practical seat height of 650 mm**. This allows you to furnish your dining room and kitchen counter in one consistent style.

STG SET Felt chair gliders

- 5 pieces suitable for SWING*, CROSS* and TURN*
- For sensitive flooring e.g. parquet, laminate, marble or fine-ceramic tiles
- (W x H x D) 40 mm x 6 mm x 13 mm
